Terraform

Not *just* a DevOps Engineer, but one that can adapt to any stack, overcome any challenge and improve what already exists. My passion is learning and being on top of what the industry has to offer. Currently taking a Cybersecurity Degree to improve my skills further, as well as learning AI *at my own pace*. I embrace challenges, help teams, and consider myself more of a *fullstack DevOps* than a simple person who does Terraform and spins up K8s clusters. Go and Python rock.

Work Experience

Kuehne+Nagel - Porto, Portugal

October 2022 - Present | DevOps Engineer
